Fruit Orchards Census Survey Punjab 2024

Introduction

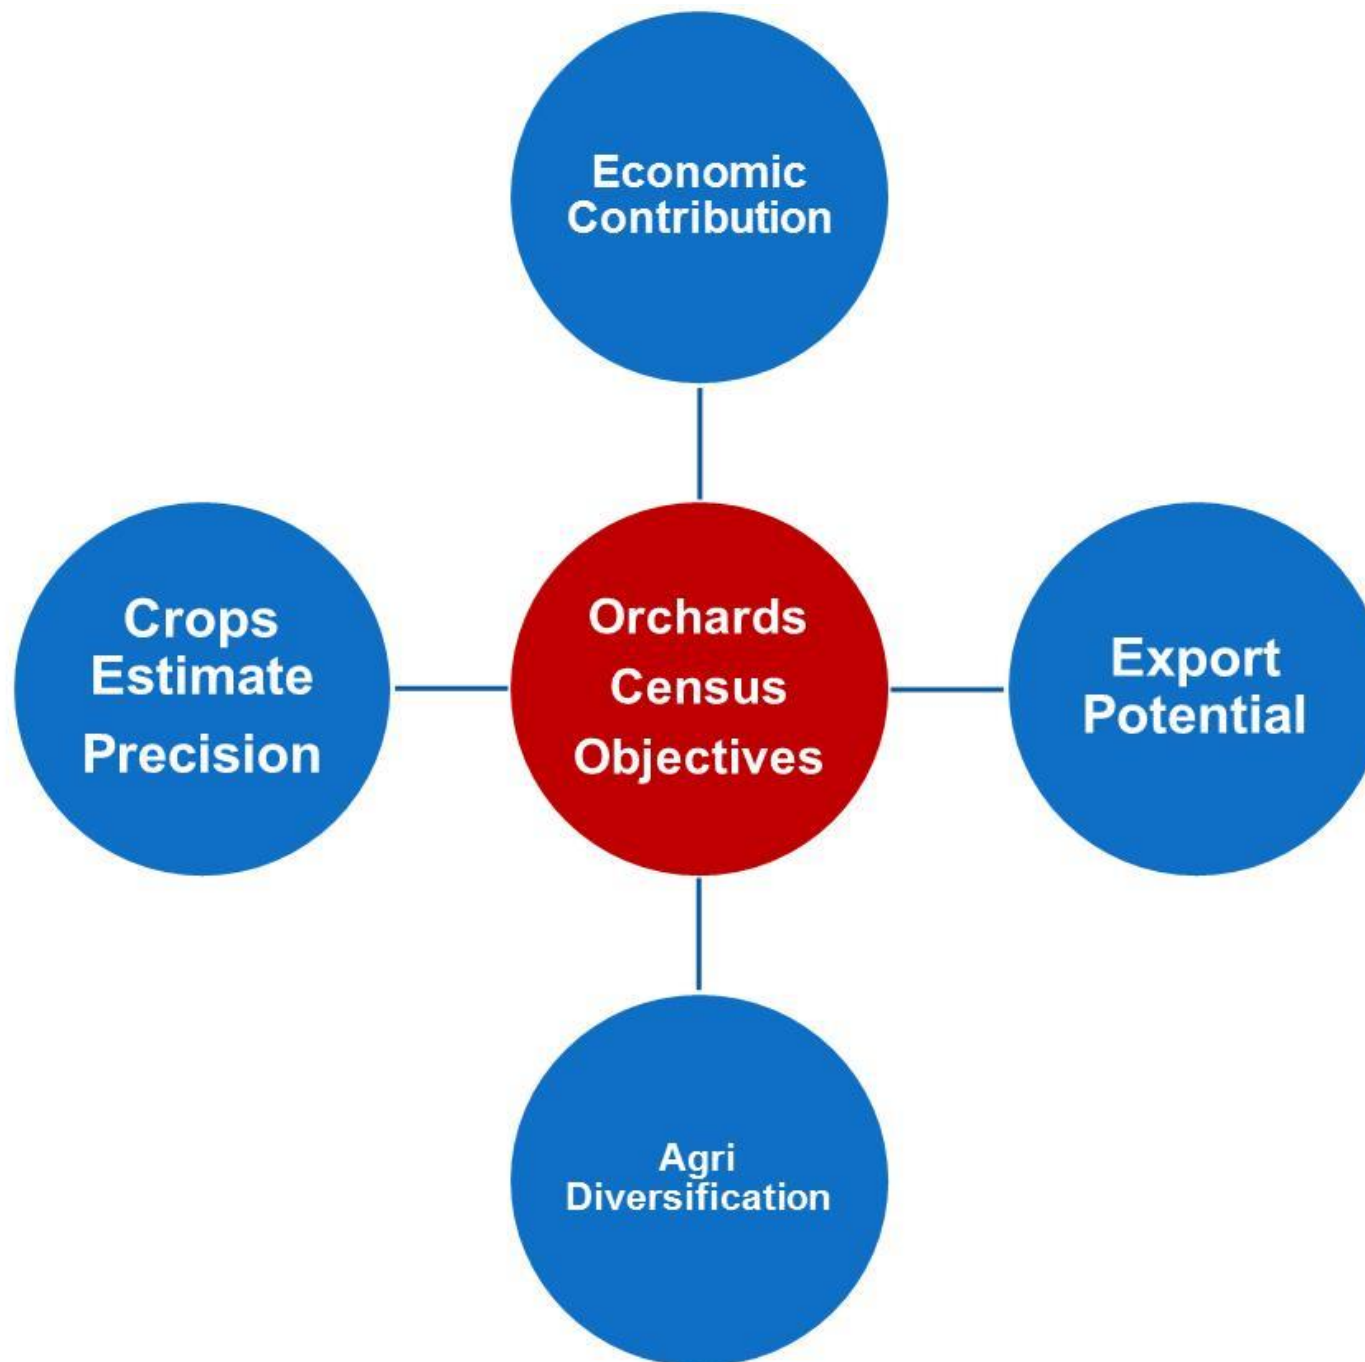

The Fruit Orchards Census Survey 2024 in Punjab is a province-wide survey launched by the Crop Reporting Service (CRS) under the Agriculture Department of Punjab. Its primary goal is to collect accurate, up-to-date data on the area, type, age, and productivity of fruit orchards across all districts. This census is a cornerstone for transforming Punjab's horticulture sector into a data-driven, climate-resilient, and export-oriented industry.

Core Objectives

- Accurate mapping of orchard areas across Punjab to determine the extent and location of fruit cultivation
- Identification of fruit varieties grown in different regions to support crop-specific development strategies
- Support for food security and export planning by quantifying fruit production potential
- Improved data resource for irrigation, pest control, and farmer support programs
- Facilitation to crop insurance schemes like the Punjab *Fasal Bema Program*

Technology-Driven Goals

- Digital Girdawari (crop acreage recording) using geospatial tools to replace manual surveys.
- Geo-referenced dashboard development combining spatial (GPS coordinates) and non-spatial (farmer/crop details) data.
- Change detection via satellite imagery to monitor expansion or decline in orchard areas over time.

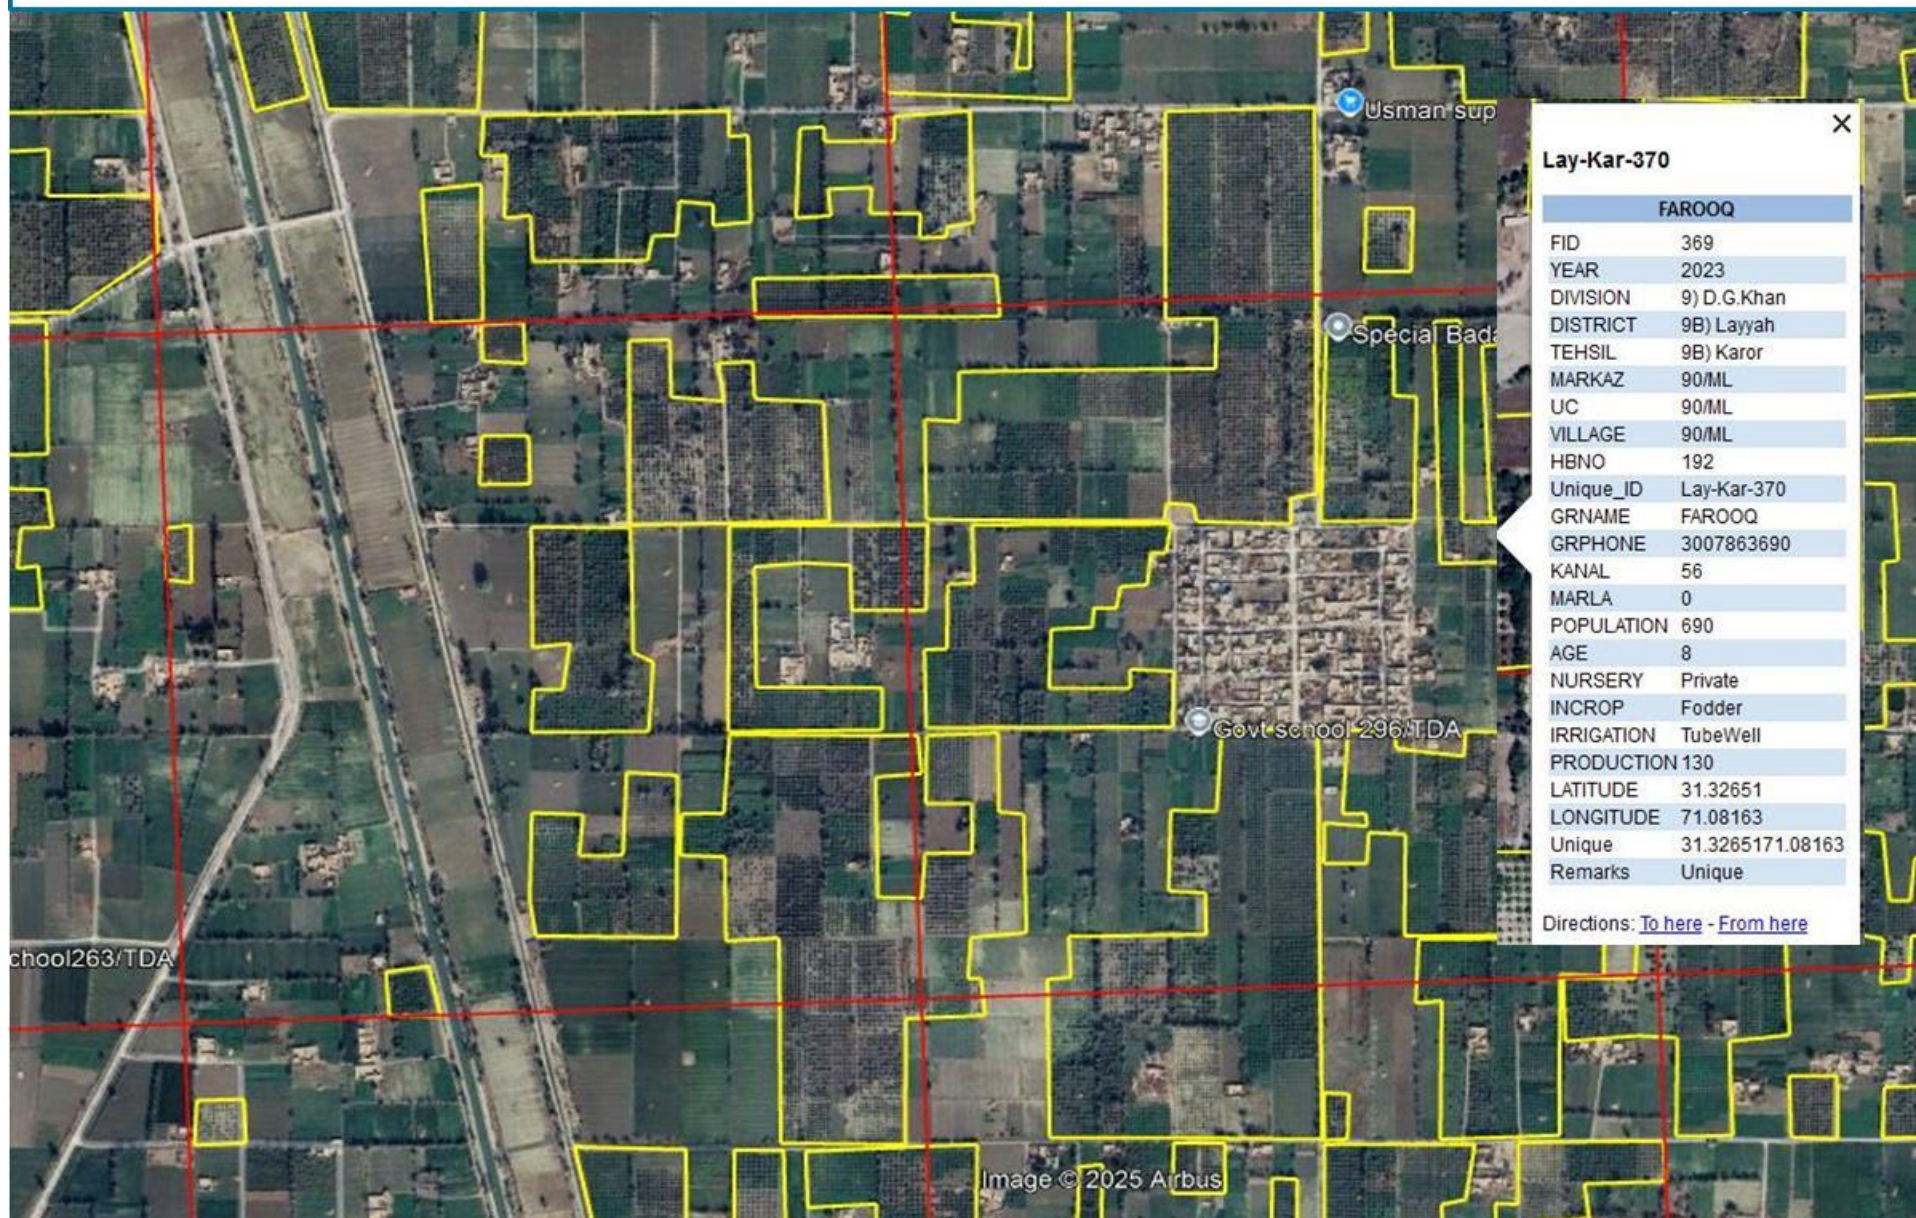

Orchards Census Survey Form, Punjab 2023

1 Year : 1990	<u>Grower Name</u> Dummy1	<u>Total</u>	<u>Irrigation</u>
		0 0	Drip
2 Division: 5) Gujranwala	<u>Grower Mobile</u> 0999-9999999		<u>Production (mnd/acre)</u>
3 District 5C) Narowal		<u>Plant Population (/acre)</u>	0
